Design in accordance with the regulations for pitched roofs:

External vertical lateral rails serving as cover or closing-off should overlap the top edge of either plaster or cladding tiles.

Building height:
- up to 8 m: min. 50 mm
- over 8 up to 20 m: min. 80 mm
- over 20 m: min. 100 mm

Recommended closing-off height for roofs above ground:
- for pitched roof areas ≤ 5° = ~ 100 mm
- for pitched roof areas > 5° = ~ 50 mm above any covering or fill-up grit.

Min. drainage area of projecting covers or closing-off rails is 20 mm.
